# ROULETTE

## The Rules

The game begins with the words "Faites vos jeux" ("Your bets please"), by the croupier who will make all the announcements. Place your bets on the "tableau". After the croupier says, "Rien ne va plus" ("No further bets") you may not place any more chips. After the ball has landed in a number compartment, the croupier will announce the winning color and number. All winning chances associated with this combination will be paid off. Please consult the graph below for the rewards. Once all wins are paid off, a new game begins.
